

Calculo II

a. $x = 1 - t^2, y = 2t - t^2, -1 \leq t \leq 2$

t	x	y
-1	0	-3
0	1	0
1	0	1
2	-3	0

b. $x = t + \sin t, y = \cos t, -\pi \leq t \leq \pi$

t	x	y
$-\pi$	$-\pi$	-1
$-\pi/2$	$-\pi/2 - 1$	0
0	0	1
$\pi/2$	$\pi/2 + 1$	0
π	π	-1
